To whom this may concern,

We are the **Society of Asian Scientists and Engineers** here at the University of Oklahoma. As one of the largest Asian-interest and STEM-focused organizations on campus, we celebrate Asian culture with our members who come from diverse STEM and cultural backgrounds. Our goals are to cultivate **professionalism**, develop **cultural awareness**, and **serve our local community**.

Our mission is to provide our membership with the knowledge, experience, and connections necessary to entering the professional world. Diversity-focused organizations such as ours serve a niche but crucial role on campus. Oklahoma, particularly Oklahoma City, served as a major destination for refugees during the Vietnam War. These refugees, sponsored by Oklahoma's Christian institutions, were able to establish themselves in the community thanks to the help of many generous Oklahomans. This means that the majority of our members are 1st and 2nd-generation students, along with a growing number of international students. OU SASE builds that supportive community and safe space for individuals with these shared experiences.

Your generous support will enable us to **expand the opportunities we provide our members** while **offering your company access to well-prepared potential recruits** and **increased recognition** on our campus. We extend our sincerest gratitude to new partners for taking an interest in our organization and look forward to collaborating with you. To our returning partners, thank you for your past support, and we hope to continue our valued partnership.

Best regards,

WHAT YOU'LL BE SUPPORTING

GENERAL BODY MEETINGS

Throughout the school year, we will hold General Body Meetings (GBMs). These meetings allow members to receive SASE activity news, connect with peers, and network with professionals at the event. These professionals provide students with their personal experiences, information on their own respective companies, and professional development advice.

Cost Information

Item	Average Cost (\$)
Food and Drinks (50+ people)	\$400
Total (x 8 meetings)	\$3200

Technical Talks

Company representatives present a specific technical topic for students to learn and openly discuss. These meetings are different from a general meeting because it exclusively focuses on an individual corporate sponsor and provides the opportunity to spotlight their company. These meetings give the company and our members an opportunity for interactions. These events help expose our membership to a wide variety of career options.

Cost Information

Item	Average Cost (\$)
Food and Drinks (50+ people, along-side representatives)	\$500
